

Projects

StockLens|Python, TensorFlow/Keras, LSTM, Streamlit, yfinance

Jul 2026

- Built an LSTM-based forecasting application using 60-session NVIDIA closing-price sequences.
- Processed 2,514 historical NVDA records with MinMax scaling and sliding-window preprocessing.
- Achieved MAE 6.81, RMSE 8.05, R^2 0.9194 and deployed the model through Streamlit with dynamic market-data retrieval.
- Github Repository Link: <https://github.com/trishita03/StockLens>
- Deployed Link: <https://stocklens-nvda.streamlit.app/>

Walmart Sales Analysis|R, RStudio, ggplot2, Statistical Modeling, Data Visualization

Apr 2026 - May 2026

- Analyzed 6,435 weekly sales records across 45 stores using statistical analysis and visualization.
- Identified business trends using statistical summaries, seasonal patterns, relationship mapping, and interactive visual reporting.
- Developed predictive models with economic and operational variables to evaluate weekly sales drivers.
- Improved forecasting strength from 2.3% to 36.2% R^2 by integrating store-specific performance factors.
- Github Repository Link: https://github.com/trishita03/Walmart-Sales-Analysis_R

Publications

Smart Vault Security in Banks: A Quantum AI-Enabled Intrusion Detection System|IEEE — ICoEIT 2025

Oct 2025

- Co-authored an IEEE paper on a Quantum AI-based Intrusion Detection System (IDS) for smart bank vault security.
- Engineered a hybrid Quantum Support Vector Machine (QSVM) model using Qiskit, PennyLane, and Scikit-learn for intrusion detection.
- Evaluated the system on biometric and IoT datasets, achieving 96.5% accuracy with strong attack resilience.
- Implemented an end-to-end real-time intrusion detection pipeline with anomaly classification and automated alerts.
- IEEE paper link : <https://ieeexplore.ieee.org/document/11211817>

Certificates

Introduction to Data Analytics

Sep 2024

Coursera — [Certificate Link](#)

Introduction to Front End Development

May 2024

Coursera — [Certificate Link](#)

Skills

Languages: Python, SQL, R, C++

Data Science: Pandas, NumPy, Scikit-learn, Data Visualization, Statistical Analysis

Tools & Technologies: RStudio, TensorFlow/Keras, Streamlit, MySQL

Core: Data Structures and Algorithms, Problem-Solving, DBMS

Soft Skills: Communication, Teamwork, Adaptability, Presentation

Education

Lovely Professional University

2025-2027

Master of Computer Application — CGPA : 7.81

Phagwara, Punjab

University of Engineering & Management

2022 – 2025

Bachelors of Computer Application — CGPA: 8.68

Kolkata, West Bengal

Guru Teg Bahadur Public School

2021– 2022

12th — Percentage : 64.5

Durgapur, West Bengal

Guru Teg Bahadur Public School

2019 – 2020

10th — Percentage : 87

Durgapur, West Bengal
